Promoting innovation in learning for Europe

European Learning Industry Group

OUR MISSION

To drive and facilitate Innovation in learning by bringing together industry leaders representing the Ecosystem of next generation Learning Solutions

ELIG's mission is targeted towards the following areas:

- 👤 Policy input at a European level and as appropriate at country/region level.
- 👤 Communication channel to the marketplace, highlighting innovative developments and directions and giving orientation to market participants and stakeholders.
- 👤 Platform for cooperation, sharing and concerted action for its members.

ELIG'S KEY VALUES

- 👤 Inclusive and representative
- 👤 ELIG sees the need for coherence between initiatives addressing lifelong learning in its different stages
- 👤 Openness of underlying technology – open systems and open standards
- 👤 Creating an environment of innovation based on healthy competition. ELIG is a place of «co-opetition», where competing industry players cooperate to develop the broader market.
- 👤 Moving towards a balance between a «supply-side» view and «demand side» perspective

MEMBERSHIP

The European Learning Industry Group is open to all companies and organisations which support our values and objectives and which are willing to play an active role in our activities.
